

**Republic Unitary Enterprise  
“Belstroycenter”- the managing company**

**«BELSTROYCENTER-HOLDING»**  
**«БЕЛСТРОЙЦЕНТРА-ХОЛДИНГ»**

# Holding's leading company:

Engineering republican unitary enterprise

**«BELSTROYCENTR»**

“BELSTROYCENTER” is the managing company of the «BELSTROYCENTER – HOLDING», which combines 24 enterprises of the Ministry of Architecture and Construction Republic of Belarus with about 10 thousand qualified employees. Our staff can produce all types of construction – installation and specialized work at any stage of construction, such as engineering services, “turnkey” construction, organization of engineering communications, landscaping, installation of technological equipment and pipelines, construction of railways, highways and bridges. Also we can provide specialized construction and lifting equipment (more than 5000 units combined). Holding’s enterprises have a vast experience in construction of industrial facilities.

All remarkable industrial facilities in Republic of Belarus were built with the participation of the holding.

Detailed information of the Holding «BELSTROYCENTER - HOLDING» is provided on our website: [www.holding.bsc.by](http://www.holding.bsc.by).

# Production capabilities:

# 24

organizations which provide all types of services at any construction stage

# 5 000+

units of construction and lifting equipment

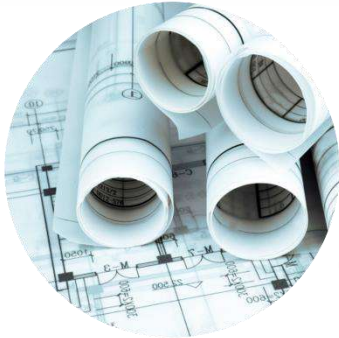

# 10 000

qualified specialists

# Providing services

**Designing services**

**Desining, industrial and civil construction and “turnkey” construction**

**Engineering services**

**Specialized works (wiring, thermal insulation, commissioning, technic works and etc.)**

**Installation of technological equipment and pipelines**

**Providing specialized construction and lifting equipment**

# Construction of industrial, civil, and transportation infrastructure:

OJSC «Construction Trust № 25»

OJSC «Construction and Installation Trust № 19»

OJSC «StroyMekhanizatsii Management»

OJSC «Stroytrest №2»

OJSC «Grodnopromstroy»

OJSC «Stroytrest №8»

01

Realization of project (design), geodetic and topographic works.

02

Realization of complex works on the installation of various (different) types of foundations.

03

Construction of housing and civil, industrial, agricultural and communal facilities.

04

Realization of complex works on internal engineering systems, all types of finishing works

05

Realization on landscape works, vertical layout, road (highways) construction

# Installation of industrial frames and public buildings made of reinforced concrete and metal construction

OJSC  
«PROMTECHMONTAZH»

OJSC  
«Mogilevtechmontazh»

OJSC  
«Gomeltechmontazh»

01

Installation of industrial frames and public buildings made of reinforced concrete and metal construction, protecting metal construction.

02

Manufacturing of construction and technological metal constructions.

03

Installation of steel tanks, chimneys, water towers.

04

Anti-corrosion coating of metal constructions and products.

# Installation of technological equipment, pipelines, constructions of petrochemical enterprises

OJSC «NEFTEZAVODMONTAZH»

OJSC «MMY NEFTEZAVODMONTAZH»

## 01

Production, installation, and repair of:

- pipelines ;
- metal and reinforced concrete tanks;
- capacitive device;
- pressure vessels ;
- industrial equipment;

## 02

Construction and reconstruction of :

- industrial enterprises;
- main pipelines;
- gas supply systems;
- buildings and facilities.

# Specialized works

OJSC «Belelectromontazh»

OJSC «Belteploizolytsiya»

OJSC «Belsantehmontazh-2»

## 01

Installation, plumbing and ventilation works at facilities of any purpose.

## 02

Electrical and commissioning works on the installation of external and internal electric power supply networks, radio, television.

## 03

A complex of works on thermal insulation of engineering systems, equipment, and pipelines.

## 04

Sound insulation of engineering systems, noise absorption.

# Provision of construction and lifting equipment

OJSC «Belarusian  
Department of Mechanization»

OJSC «UM-79»

OJSC «Mechanization Department № 91»

OJSC «Mechanization Department № 12»

## 01

Vast park various equipment :

- tower cranes
- auto cranes
- crawler cranes cargo
- passenger lifts
- semi-trailers
- mast platforms
- dump trucks

## 02

Rent of construction and lifting equipment.

## 03

Servis support and repair of cranes, diagnostics and repair of lifting equipment.

# Completed industrial facilities in the Republic of Belarus

## Belarusian NPP, Ostrovets, Grodno region

A 1,000-seat school with a swimming pool in *Medyn*, Kaluga Oblast

Completion dates:  
December 2020 – July 2022  
Area: 30,086.40 m<sup>2</sup>

A school for 1,125 students in the Baikonur microdistrict of *Kaluga*

Completion dates: July 2022 – June 2024  
Area: 26,256.70 m<sup>2</sup>

A 160-seat kindergarten with a swimming pool in *Meshchovsk*, Kaluga Region.

Completion dates:  
September 2021 – August 2022  
Area: 4,188.20 m<sup>2</sup>

# Completed social projects implemented in the Russian Federation

## Leningrad Region

*Kindergarten in St. Petersburg for 190 children*

*Completion dates:  
March 2020 – March 2022  
Area: 5,265.50 m<sup>2</sup>*

*A school for 825 students in the urban settlement of Novoselye, Leningrad Region.*

*Completion dates: July 2022 – August 2025  
Area: 18,500.00 m<sup>2</sup>*

# Completed social projects implemented in the Russian Federation

## Nizhny Novgorod Region

*A 1,500-student school in Arzamas,  
Nizhny Novgorod Region  
Completion date: March 2023 – December 2024  
Area: 31,432.50 m<sup>2</sup>*

*The educational institution has an observatory with the most modern equipment with the ability to continuously record 48 hours of solar corona, deep space, and meteor showers..*

# Social facilities implemented in the Russian Federation.

## Vladimir Region

A school for 1,200 students in *Suzdal*, Vladimir Oblast

Completion dates: July 2023 – November 2025

Area: 43,727.70 m<sup>2</sup>

Construction of the House of Justice in *Vladimir* (in the development stage)

Implementation period: 2026–2027

# Social facilities implemented in the Russian Federation. In the implementation stage.

## Kaluga Region

*Construction of the low-rise residential complex  
Ulanovo in the Kaluga region*

*Includes the construction of 32  
individual residential buildings with  
full infrastructure.*

*Project completion date:  
2025-2026.*

*A school for 300 students in the  
village of Mstikhino, Kaluga  
Region.*

*Project implementation period: 2025 - 1st quarter of 2027.*

*Reconstruction of the "Kindergarten in  
Medyn, Kaluga Region"*

*Project implementation period:  
2025 - 1st quarter of 2026.*

# Social facilities implemented in the Russian Federation. In the implementation stage.

## Kaluga Region

*A preschool educational institution for 160 children with a swimming pool in the village of Terentyevo, Maloyaroslavets District*

*Project implementation period: 2nd quarter of 2026 – 1st quarter of 2027.*

# Social facilities implemented in the Russian Federation. In the implementation stage.

## Nizhny Novgorod Region

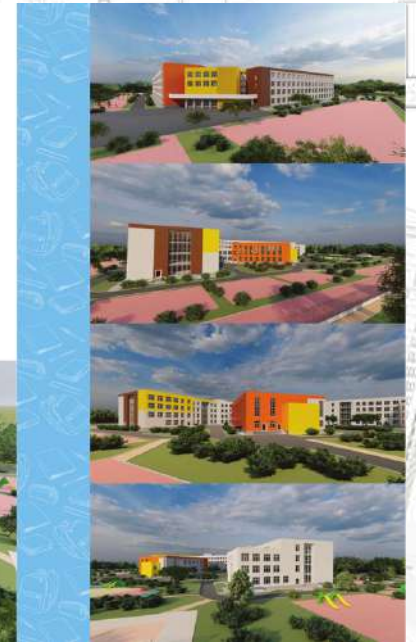

*A school for 1,205 students in Balakhna,  
Nizhny Novgorod Region*

Nizhny Novgorod Region  
Government.  
Construction of a school for 1,205  
students.  
Balakhna, Bulgan Street  
Total area: 23,981 m<sup>2</sup>  
Building area: 7,981 m<sup>2</sup>

*A school for 1,225 students in the village of Krutaya,
