«Belarusian Cement Company»

[bck.by](http://bck.by)

Belarusian Cement Company Holding is a leading manufacturer and supplier of construction materials in the Republic of Belarus.

**The holding includes three cement plants:**

- OJSC «Belarusian Cement Plant»
- OJSC «Krichevcementnoshifer»
- OJSC «Krasnoselskstroymaterialy»
- More than 15 branches for the production of reinforced concrete products, gas silicate blocks, bricks and other products.

# Products range

**Cement**

**Cellular concrete blocks**

**Precast reinforced concrete**

**Lime**

**Dry building mixes**

**Silicate bricks**

**Board**

**Paving slabs**

- The production capacity of the three cement plants in 2024 is 5.09 million tons per year, including :

OJSC «Belarusian Cement Plant»	2,1 mn. tons
OJSC «Krichevcementnoshifer»	1,57 mn. tons
OJSC «Krasnoselskstroyaterialy»	1,42 mn. tons

- Production capacity of the holding company's enterprise for other types of products per year :

Lime	0,408 mn. tons
Aerated concrete blocks	1,029 mn. tons
Prefabricated reinforced concrete	0,17 mn. cub.m
Dry mixes	70,7 th. tons
sand-lime bricks	90 mn. conv. units

**OJSC «Krasnoselskstroyaterialy»  
modernized in 2012.  
Investment volume 244.1 million euros.**

**OJSC «Krichevcementnoshifer»  
modernized in 2013.  
Investment volume 438,1 million euros.**

**OJSC «Belarusian Cement Plant»  
modernized in 2012.  
Investment volume 338,8 million euros.**

## Portland cement

Belarusian Cement Company produces about 30 types of cement

**Portland cement CEM I 52.5 N**  
**Portland cement CEM I 42.5 N**  
**Portland cement CEM I 42.5 R**  
**Portland cement CEM 0 42.5 N**  
**Portland cement CEM 0 42.5 R**  
**Portland cement CEM 0 52.5 N**

### Specialized cement range:

Portland cement CEM II/ B- W 42.5 N  
Portland cement PCT 500  
Portland cement CEM I 42.5 H SR  
Sulfate-resistant Portland cement slag  
CEM III/ A-Sh 32.5 N  
Portland cement PCT II-50  
Portland cement CEM II/A-Sh 42.5 N SR  
Portland cement CEM I 42.5 N RP  
Portland cement ЦЕМ II/ A-Sh 42.5 N  
Sulfate-resistant Portland cement slag  
CEM I 42.5 N SR

## Aerated concrete blocks

Belarusian Cement Company produces aerated concrete blocks with the following specifications and dimensions

### Technical characteristics

Average density grade	350	400	500	600	700
Thermal conductivity in dry state, W/(m·K), not more than	0,094	0,0917-0,107*	0,119-0,128*	0,138-0,149*	0,176
Strength	B1,5 B2,0	B1,5, B2,0 B2,5*	B2,5, B3,5*	B2,5 B3,5*	B2,5 B3,5 B5,0*
Frost resistance cycles	25 (100)	25 (100)	35 (100)	35 (100)	35 (100)

### Dimensions

625×100×250  
625×120×250  
625×150×250  
625×200×250  
625×250×250  
625×300×200  
625×300×250  
625×400×250  
625×500×250  
600×300×200  
600×400×250  
600×300×250  
600×100×250  
600×200×250  
600 x 250 x 500

## Lime

We produce about 15 types of lime:

- Building lime, air-slaked, calcium, lump, uncrushed, quickly slaked, in bulk, GOST 9179-2018, grade 2
- Building lime, air-slaked, calcium, lump, uncrushed, quickly slaked, in bulk, GOST 9179-2018, grade 3
- Building lime, air-slaked, calcium, powdered, without additives, uncrushed, quickly slaking, in bulk, GOST 9179-2018, grade 2
- Building lime, air-slaked, calcium, powdered, without additives, uncrushed, quickly slaking, in bulk, GOST 9179-2018, grade 3

## Development and mastering of new types of products for the customer.

Specialists from the scientific and technical department are ready to formalize the technical assignment and supervise the launch of new types of products according to customer requirements.

---

**The holding has a sustainable structure that implements the tasks of the research sphere, improving technological processes and creating new types of products.**

**The holding's branches provide:**

- wide range of transport services
  - construction services
  - repair and maintenance services
- for technological equipment

BELARUSIAN CEMENT COMPANY

## The company's activities are based on three main principles:

- individual approach to the client
- impeccable product quality
- strict compliance with obligations
